

## Parents:

### Preparing your child for League Picture Day

#### **Before you leave your house:**

- Make sure your child has all pieces of their uniform, especially belts and hats.
- Pose: We will be taking 3 different poses. If you have something specific you want us to do, decide now. Make sure your child can get into the pose you want to use. Note: Ground or full body poses are not recommended with this system.
- Bring any equipment you would like to use in the photo. We have only limited choices available.

#### **Picture Day:**

**Arrive before the scheduled time for pictures for your child's team.**

#### **Before your child is in front of the camera:**

**This is a no touch system. The photographer and/or assistant will not perform any of these tasks.**

- Make sure all clothing adjustments have been made: shirts, belts, hats, etc.
- Make sure that anything you do NOT want to be seen in the photo is removed: Band-Aids, sunglasses, etc. **Please Note:** Mirrored sunglasses will reflect the image of the photographer and anything else behind the photographer. We don't want to be in your child's photo.
- Make sure face and nose are clean
- Make sure hair is combed or straightened.
- Make sure you have any equipment you want to use (ours is limited)
- If your child has special needs, notify the photographer. (You will most likely be asked to help)
- If you want a specific pose, notify the photographer
- If you want children photographed together, notify the photographer before he/she begins taking photos. (Limit 3)
