

Coaches:

Preparing your team for League Picture Day

At your last practice:

- Remind all players that Picture Day is coming and the date.
- Let parents and players know what time they are scheduled to take pictures
- Tell parents and players to come at least 15 minutes before their assigned time

Picture Day:

Arrive before the scheduled time for pictures for your team.

Before your child is in front of the camera:

This is a no touch system. The photographer and/or assistant will not perform any of these tasks.

- Have parents check in at the table to make sure we have all required information.
- If we are doing virtual team photos, we will be taking a photo of each coach so you will also need to check in at the table. We will let you know if this is the case.
- Get your team in line to come to the photographer.
- Make sure all clothing adjustments have been made: shirts, belts, hats, etc.
- Have parents make sure that anything NOT wanted to be seen in the photo is removed: Band-Aids, sunglasses, etc. **Please Note:** Mirrored sunglasses will reflect the image of the photographer and anything else behind the photographer.
- Make sure hair is combed or straightened.
- Make sure your players have any equipment they want to use (ours is limited)
- If a player has special needs, notify the photographer. (You or a parent may be asked to help)
- If a parent wants a specific pose, notify the photographer.
- If a parent wants children photographed together, notify the photographer before he/she begins taking photos. (Limit 3)
